Advanced Teeth Whitening System

From just
£ 7.50
*vat

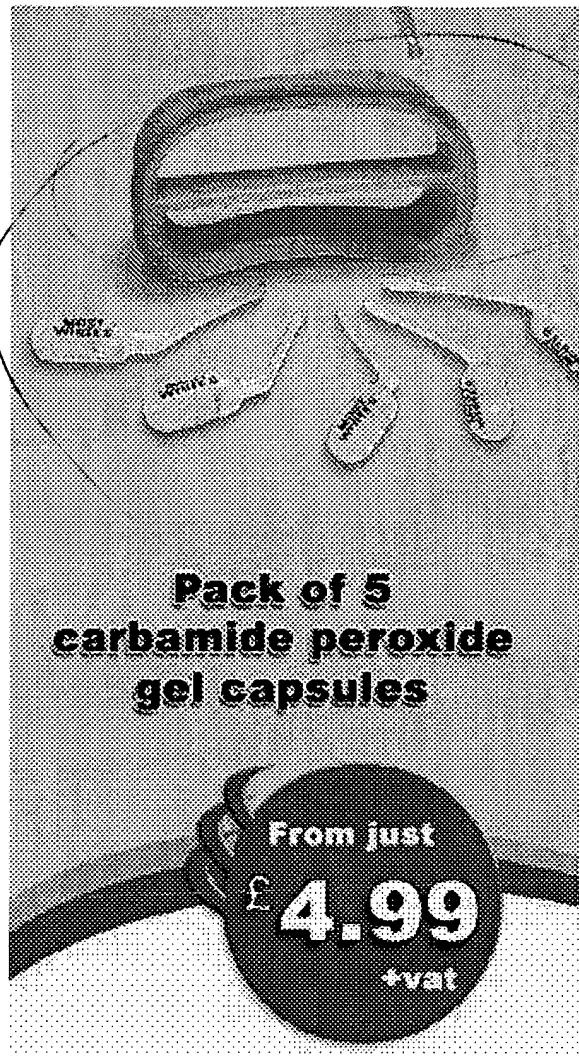

◆ Kit contains 5 carbamide peroxide gels and complete mouthpiece with a unique bite strip.

Transform Your Smile While You Tan

How to use Most Whites Teeth Whitening Gels

- ◆ Take one of the gel applicators and snap off the top open
- ◆ Apply the gel evenly to the front of your top and bottom teeth
- ◆ Hold the mouthpiece with the raised edge facing towards you
- ◆ Insert the mouthpiece one side at a time and hold on the bite strip
- ◆ This will fully expose your top and bottom teeth regardless of any over or under bite

**Pack of 5
carbamide peroxide
gel capsules**

❖ **Ingredients:**

Propylene Glycol, Glycerin, 21% Carbamide Peroxide,
Carbopol, Trisamine, Sodium Saccharine, Flavour.

- ❖ You are now ready for your tanning session
- ❖ After your tanning session, rinse your mouth

How does it work?

- ❖ The UV light from the sunbed activates the carbamide peroxide gel
- ❖ Just lie back (or stand) and get a tan while your teeth are transformed from dull to dazzling white!

❖ **Warning**

Only use once per day.
Discontinue use if gums become over sensitive. If pregnant or breast feeding, consult your doctor. Keep out of reach of children.
